

ChemLINE®

**NEED A HIGH PERFORMANCE
TANK LINING FOR ALL TYPES
OF AGGRESSIVE CHEMICALS?**

**Come to Exhibit #860 at ILTA and Experience
the ChemLine® High Performance Solution.**

*There is great risk of corrosive attacks by
volatile products contained in bulk liquid
storage facilities.* That is why tank operators

choose the reliable ChemLine® polymer-based coating from Advanced Polymer Coatings. ChemLine® provides superior chemical resistance to thousands of aggressive chemicals including H₂SO₄, Waste Acids, 37% HCL, Acetic Acid, Caustic Soda, Solvents, Hot Oils, Fracking Materials, Brine, and many others.

June 12-14, 2017

**ILTA 37th Annual International
Operating Conference & Trade Show**

*George R. Brown Convention Center
Houston, Texas*

ILTA's annual international operating conference and trade show offers unparalleled opportunities for terminal professionals and vendors alike. It brings together more than 4,000 people to learn, network, and share best practices. The conference features in-depth presentations by industry experts on effective solutions for improving terminal operations and the latest in products, services and technologies. We look forward to seeing you there!

Advanced Polymer Coatings, 951 Jaycox Road, Avon Ohio 44011 U.S.A.
