Lining tank containers with high performance ChemLine® coatings ensures product purity for hazardous chemicals, such as Hydrogen Peroxide, Chloroacetic Acid, Sulfuric Acid, Hydrochloric Acid and thousands more.

Many chemical manufacturers and carriers have worked with one, or all our team of companies. These include PPG, Huntsman Chemical, BASF, SF-Chem, Bayer Chemical, CIBA, Du Pont, and many others.

Contact us to discuss your corrosion protection and high purity assurance needs for tank containers in North America!
